

## Piano Teacher Testimony

**I never thought I'd find what I was looking for....  
Music and More with Robin Knorr, Columbus,  
IN, USA.**

With my new opportunity to change careers, I decided to focus on my passion for teaching. In mid 2001, I started my own studio with 20 children and the desire to be successful.

By 2002, I realized that I needed more training. That summer, I took three Musikgarten workshops covering birth to age 6. **Musikgarten provided me with the training in early childhood music and movement that I was missing. Now I had the confidence and knowledge I needed to be a great teacher.**

**In three years my studio has grown to 22 classes with over 220 students.** This is the rewarding and flexible experience I was looking for!

**Musikgarten's high quality curricula, hands-on in-person workshops and live customer support have all contributed to my success.**
